

EVENTIDINGS

AUTUMN 2022 ISSUE 31

WELCOME TO THE AUTUMN EDITION OF EVENTIDINGS

Hello residents, and your family and friends,

Welcome to the Autumn edition of our newsletter. I hope you all had an enjoyable and peaceful Xmas and New Year.

I'm looking forward to the time when we never have to mention COVID-19 again. By now, we are all feeling tired from the many disruptions, restrictions, and ever-changing government rules, but I do congratulate our residents, their family and friends, and our staff for a wonderful job in keeping COVID away from our residents. There is no doubt a bit of luck involved with that, but Eventide Homes has also prepared and responded very well to COVID. Well done everybody, keep up the good work.

Recently, we have welcomed Rachael Muckleston to our team, as the new Residential Manager. Rachael is a Registered Nurse who brings plenty of great experiences in Australia and abroad, and her appointment will be a key step for us to move towards a new era at Eventide Homes.

I thought that for this edition, I would focus on a theme of our facilities, because we are looking at ways that we can give our main facility a bit of a face lift.

I am pleased to report that we will soon start this process by renovating Warne House and Urquhart House. We are going to lay brand new floors throughout Warne and Urquhart corridors, communal spaces, and resident rooms. The floors will be a vinyl product, which is very common

in many new homes nowadays – these will look great, are easy to clean and maintain, and won't retain any stains or odours from spillages.

We are also considering re-painting the interior of Warne and Urquhart, with sensory colour schemes and other things that help people living with dementia. We want the physical living environment to feel light and airy, modern, and stimulating.

A new 12-bed wing is planned to adjoin Warne House, and we are a step closer to that project commencing. Once we receive a report of the location of all the current underground services where the new extension will occur, we will be able to put out a public tender for a building company to build it for us.

The other Houses at Eventide Homes have not been forgotten. Our desire is to submit an application to the Commonwealth Government for funding to build a new two-storey 'core building', which would be located roughly in the middle of the current main facility, and also renovate existing Grampians, Cashin, Currie, and McGregor Houses. The floor plans look quite fantastic, and will add new spacious areas for residents and their families and friends to visit or mingle.

We have identified a major government-funding program that will call for applications later this year, or early 2023, and we intend to use the time between now and then to develop a compelling case for Eventide Homes to win funding to help us build the new 'core building' and renovate Houses.

Thank you for choosing to live at Eventide Homes, Stawell. We are excited about the future regarding new or updated facilities, especially leveraging from them to value-add to the residents' experience of living here.

Enjoy what remains of Summer, and wow, Easter is almost here already!

Kind Regards

Gary Simpson – Chief Executive Officer

MEET NEW RESIDENTIAL MANAGER RACHAEL MUCKLESTON

Thank you to all residents, families and staff for welcoming me to Eventide Homes.

Originally from the South East of the UK I trained as a Registered Nurse in Kent and then worked in Cambridge, Yorkshire and Liverpool. I then did a year of travelling around the world before settling in Australia.

I have lived and worked in South Australia for approximately 16 years before moving to Victoria just over a year ago. Moving in the middle of a pandemic was certainly a novel experience!

I have worked in all areas of nursing from general surgery to ICU in huge UK hospitals to then working in small rural hospitals in Australia which are multi-purpose acute and aged care.

I am very keen to bring change to Eventide and look forward to working with Gary our CEO and the rest of the team to empower the staff and residents into making Eventide Homes a great place to live and work.

Rachael Muckleston – Residential Manager

MANGLE FAMILY DONATE \$1M TOWARDS NEW DEMENTIA WING

Eventide Homes has received an extraordinary donation totalling \$1,000,000 from the Mangle family of Halls Gap. Following a recent tour of the facility and a lunch hosted by a delegation of the Board of Eventide Homes, Pip Mangle and his wife Eve handed over cheques on behalf of the Mangle family, including Chas Mangle. “Eventide Homes does a wonderful thing caring for aged people in our community, and as a family, we couldn’t think of a more worthy recipient of our donation” said Mangle family spokesperson, Pip Mangle. “The tour of the buildings, and hearing about the history of Eventide Homes and its plans for a new dementia wing, convinced us that the money is going to be used for a great cause.”

Chair of Eventide Homes, Peter Greenberger, said the generosity of the Mangle family will benefit aged people in the region for many years to come. “We have plans for a beautiful new 12-bed dementia wing that will

stand for many years. It is going to be a benchmark for building designs for people living with dementia. It will have sensory gardens, spaces for visitors, a covered outdoor gym suitable for aged people, and fixtures and fittings that will be mentally stimulating and inviting.”

The CEO of Eventide Homes, Gary Simpson, said that every dollar donated will go to the new dementia wing. “When people donate to Eventide Homes, we do not skim anything off the top for overheads, or squirrel the money away into general revenue. 100% of money donated to us goes directly to where it is intended, and I will be keeping the Mangle family updated on where and how their donation is being spent.”

Mr Mangle said “The Mangle family of Halls Gap is looking forward to following Eventide Homes’ progress as they bring their exciting plans to life for the new dementia wing. This is going to be great for the local community, and even better for people with dementia. We wish them well.”

CLINICAL CARE UPDATE

I would like to thank all the hardworking staff who have endured 2 years of covid stress and ever changing rules but have continued to support and care for our residents and their families.

Leadership have responded to the evolving Covid situation by having daily Covid Update meetings and then sharing this information with staff. Residents and families are also notified of key changes.

Staff have worked hard to keep Covid out of our home by complying with PPE restrictions, vaccination mandates and regular RAT testing. Even as I write this we have had to put our Outbreak Management plan into action! Eventide staff responded in a prompt and professional manner.

It was a pleasure to be part of my first residents meeting and see how valued their ideas and opinions are to the staff and management of Eventide.

Clinically I have initiated a few changes. The clinical leadership team now have weekly multidisciplinary meetings to discuss clinical issues and the best strategies to resolve them.

Tablets have been purchased so all care staff can now do point of care documentation in their allocated wing which ensure staff are with residents rather than leaving them to document in the nurses station. Staff have welcomed this change. We have introduced a Pain Chek application which assesses non-verbal cues for pain; this will allow staff to more accurately diagnose and treat pain in our residents living with dementia. There is education for staff in both of these new tools.

We are introducing a new, simplified Wound Care management system and staff will be receiving education in wound care and continence care.

All staff will be receiving education on Dementia Care and Montessori over the coming months. I would also like for residents and their families to bring in pictures or other items that would individualize their room doors to make them easily recognizable for their loved ones.

Our pharmacist Som from Trident will deliver quarterly education to clinical staff starting with anti-psychotic medications. We have also commenced "in-house" education at handover time delivered by myself and my CTC on Falls Prevention, Restrictive Practices and Sepsis. Stick to Stand is another quality improvement that I have introduced which looks at providing the best chair and bed height for residents to easily and independently rise from the sitting position; this means we may need to look at purchasing adjustable furniture.

Our domestic and laundry staff are doing an amazing job of training new staff and keeping our facility clean and well stocked with linen. Thank you to all of them especially over the last few months.

Our catering team are going through a particularly challenging time and I would like to thank the team for rising to the challenge and being flexible with their shifts and hours. They have worked well with the volunteers who have come to assist at meal times. The catering team also appreciated the assistance from the Australian Defence Force.

Eventide is working towards our Aged Care Quality Standards Accreditation which will happen in August. The leadership team meet weekly to look at gap analysis and action plans to ensure we will meet the standards. After the Royal Commission, audits are particularly tough as we would expect and staff at Eventide will work hard at all times to do their best for our valued residents.

MOVING ON AUDIT'S TOOL

Eventide has implemented the Moving on Audit's tool which will self-assess our alignment with The Aged Care Quality Standards. Our aim is to ensure we are compliant to The Aged Care Quality Standards and that we promote best practice into the care of our residents.

There is a stronger emphasis on talking to our residents for their views. Residents will notice all of our staff will be asking them questions each month based on the audit topic for that month. Surveys form a part of this audit system and can be distributed via email, which will be easy to access, especially for our resident's family members, their feedback is valuable to us.

With the end of February officially closing our Summer Season and the start of March moving into Autumn it has been the perfect time to get our residents out walking again. The Lifestyle and Allied Health Teams have upped our current Activity Program to include a regular walk around the large Eventide Block each morning with some great results. Add to this the current weekly Allied Health Seated, Balance, Yoga and Meditation exercise classes, plus the popular Active Games, Drumming to the Beat sessions and Scarf Dancing Classes. Include the Allied Health Physio one on ones and the opening of our new Gym with personalised exercise programs for our residents and we have a great start to getting our residents up, out of their chairs and moving. We hope we have a little something to suit everyone.

We have continued to work hard on securing new volunteers and have recently welcomed five new members in various roles. Some of these jobs include helping out in the Men's Shed Gardening Program, the Lolly Trolley, Resident Shopping Orders, Resident Surveys and our Monthly Special Events. The Volunteer Dining Room Roster is working really well. I continue to be amazed at the help offered by our Independent Living Unit ladies, the local Red Garter ladies and other members of the general public that can still find the time and energy to assist us through these difficult times. We thank them all and appreciate everything they are doing.

At the other end of the scale we had the pleasure of our very own Australian Defence Force working here at Eventide homes for 5 days. I was impressed, what a lovely, polite and helpful group of men and women. They finished their time here being pushed out of their comfort zone to present a presentation on a personal level about what they do within the ADF? Why they have chosen to do it? And the level of training they continually endure to maintain their positions. Our residents loved it and we all enjoyed an afternoon tea together as a thank you for their time and support to the Eventide Staff and our residents. Hard to imagine that shooting a high tech weapon from a Navy vessel was less daunting than chatting to some of our elderly residents.

Our Special Event activities for 2022 have included:

- **Games 2021 Champion Trophy Presentation**

First, Second and Third Medallions for Ten Pin Bowling, Bocci and Indoor Golf, turn to page 11 in this Newsletter to see our Champions and place getters.

- **Australia Day BBQ Lunch**

Our residents always love a good BBQ and it's not going to be an Australia Day without one.

- **Valentine's Day High Tea**

Always a lovely afternoon spent together, with displays of resident wedding photos creating some reminiscing and lots of chatter about who's who.

- **3 Monthly Birthday Celebrations**

Annual 3 Monthly event made extra special this month because we had the privilege to include the celebrations for Gloria Pyke's and Rex Pilmore's 100th Birthdays.

- **Eventide Gym Opening and Information Session**

This year the Lifestyle Team got together for an afternoon to nut out and forward plan our 2022 Special Events Calendar. Monthly themes, dates and times have all been locked in and we can continue to work and improve each event in a timely manner to give our residents the best on the day. Of course this does not mean we are not on the lookout for further ideas, community events and other interesting concepts to continually improve the current program. So if you hear of a great entertainer, somewhere special we could visit or you just have an idea that you think could work well and our residents would enjoy, we would love to hear about it.

Our current calendar continues to include people such as Di Stewart, who does a great job keeping our Eventide Choir busy working towards the end of year concerts, our different religious denomination communions and services and our pet therapy programs etc.

The Lifestyle Team have enjoyed getting to know our new Residential Manager Rachael Mucklestone and look forward to working closely with her on the many ideas she is bringing to Eventide.

We are grateful for all of the support given to our residents by staff, volunteers, family and friends as we continue to find our way in what has become a challenging time for facilities just like ours all over Australia.

The year ahead is moving quickly, we wish you and your families a happy and healthy Easter. Keep safe and be kind to each other.

Pamela Wheeler
Leisure and Lifestyle Coordinator

NEW CHAIR FOR EVENTIDE HOMES BOARD OF GOVERNANCE

Eventide Homes would like to congratulate the new Board of Governance Chair Peter Greenberger, who has been an active director on the Board since 2015.

Peter has a strong finance background having worked in business management for most of his career. This experience was the reason he originally commenced on the Board and has since been overseeing the Audit, Risk, Compliance and Finance committee as chairperson.

As a couple Peter and wife Jenny are very community minded and like to give back to the community in which they live, understanding that they may require aged care services themselves in the future. Peter said "What goes around, comes around. The Eventide Homes Board of Governance has been brilliant over a long period of time and I look forward to continuing the growth of Eventide Homes with additional accommodation for the growing needs of our community. After the recent Royal Commission into Aged Care there will be a lot of changes to the way we provide and deliver services. We have a pretty diverse and experienced Board and we all look forward to the challenge."

"I would like to thank outgoing Board chair Julie Dunn for her leadership. She has been magnificent in the role, especially over the last 18 months during a difficult time, as we have navigated our way through the pandemic."

NEW FAMILY OUTDOOR AREA AT EVENTIDE

Eventide Homes now boasts a new children's playground supported by a community grant received from the Northern Grampians Shire council.

The newly-constructed play equipment situated on the Village Green will be an area to keep our young visitors entertained whilst visiting loved ones. Residents can choose to meet or walk with visitors, families, and friends and enjoy the outdoors. The area surrounding the playground also features bench seating, shaded picnic areas for relaxation, and an undercover barbecue.

Located in the central area of our residential units, the playground is available for use for children of our Eventide family and friends visiting both our residential and hostel residents. The bench seating enabling residents to enjoy watching the children play during their visit.

Eventide Management also identified research that suggests that providing intergenerational activities for residents results in positive outcomes to improve feelings of community connectedness, reducing feelings of social isolation and loneliness and improvements in overall health and wellbeing. We have built positive relationships with schools in the local area enabling an Intergenerational Program involving visits from students to undertake activities in-doors, the new playground equipment will now also provide an area to enhance this program for fun outdoor activities.

I am happy to see this area now open for residents to enjoy with their family and friends, as well as increasing activities within our Intergenerational Program.

NEW GYM EXPERIENCE FOR EVENTIDE RESIDENTS

We are extremely happy to announce the launch of our new gym space located in Cashin House. The new gym has been partly funded by the Foundation for Rural and Regional Renewal.

The gym space consists of three specialised pieces of equipment supplied by HUR Australia and consists of a Multifunction 5X, Leg Press and a Pulley Machine. The HUR exercise equipment has been designed with older adults in mind, therefore the equipment is easy to use and is easily adjusted to suit our resident's needs.

The opening of the 'Eventide Gym' was recently held in the Glyn Cashin Hall.

Our enthusiastic Allied Health team launched the new gym with a video presentation, healthy snacks and a gym membership lanyard for each resident. Staff also joined in with a fun exercise challenge.

Together, our allied health team have been able to continue providing pain management interventions and individual rehabilitation and re-enablement programs for residents along with the following Group Exercise classes:

Monday: Seated Exercise Class
(Glyn Cashin Hall)

Wednesday: Falls and Balance Exercise Class
(Glyn Cashin Hall)

Thursday: Mindfulness Meditation Class
(Grampian's Chapel)

We look forward to continuing to support our residents as best we can and we look forward to the quarter ahead with you all!!

VOLUNTEERING AT EVENTIDE HOMES

Eventide Homes along with most aged care facilities across Australia have faced lockdowns and staff shortages due to COVID-19 isolation periods and exposure.

We have accepted the generosity of many community members who have kindly taken up the mantle to help Eventide at this time. Australian Defence Force personnel have also been made available in a targeted effort to support our existing workforces as we deal with the staff shortages. We are grateful for all the help we have received from the community, and with restrictions easing we would like to invite members of the public to consider becoming a volunteer and enhancing our volunteer program.

Eventide Homes has a long history and a strong culture of volunteering. We are fortunate to have volunteers contributing their time and talents in a wide range of areas, including social support and activities with residents, gardening, hospitality and chaplain support. Volunteers play an important role in helping Eventide to maintain the highest level of service to our residents and deliver peace of mind with our care.

Volunteering is also personally rewarding. The benefits of volunteering include:

- Meeting people and making new friends
- Maintaining a sense of purpose from contributing to a cause knowing that your making a difference to the lives of others
- Gaining confidence and self esteem
- Developing skills, knowledge and experience
- Improving employment prospects

We are always looking for new volunteers in a variety of roles:

- Leading special interest groups
- One-on-one visits
- Teach residents new skills and learn from them
- Provide companionship to residents
- Provide transport services and help residents revisit or explore their communities

If you are interested in becoming a volunteer or would like further information please contact our Leisure and Lifestyle Coordinator – Pamela Wheeler on (03) 5358 2027.

AUSTRALIAN DEFENCE FORCE PRESENTATION

The Federal government recently offered all Aged Care providers access to temporary additional staff, from personnel within the Australian Defence Force (ADF).

Eventide Homes were lucky enough to have five general duties and three clinical Australian Defence Force Personnel with us at Eventide, offering assistance to staff and companionship to the residents. This was an initiative which we grabbed with both hands.

We viewed the ADF temporary presence as value-adding to our staff, who have done a mighty job working under tough COVID restrictions for the last two years.

CASHIN DECKING COMPLETED

Eventide Homes residents, staff and guests celebrated the opening of a beautiful new decking area for all to enjoy with a good old fashioned BBQ.

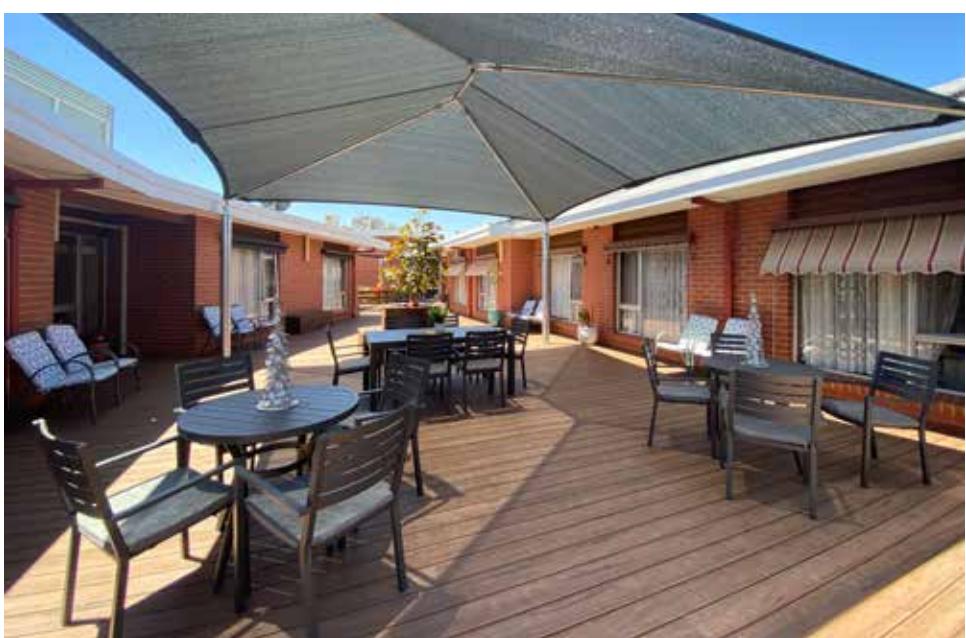

The architecturally designed Cashin Deck has been made possible because of the many donations given to Eventide Homes by our local Bookworm Gallery. The bookworm Gallery have been a consistent supporter of Eventide Homes and have donated on many occasion to Eventide throughout past years.

We appreciate the time and effort from volunteers who donate their time at the Bookworm Gallery to further enhance the lives of our residents. Bookworm Art Gallery Cherrelle Nicholson said most of the volunteers at the

gallery were past employees of Eventide Homes and love giving back to the residents.

Eventide Homes were fortunate to receive a grant from the Department of Health for the construction of two large shade sails to protect residents from the weather whilst enjoying time out on the deck.

Chief Executive Officer Gary Simpson is very happy with the finished design and said "The project has taken a little longer than expected with COVID-19 lockdowns and such, but it has definitely been worth the wait. It is the perfect area for residents to spend time with visiting family members, or just enjoying a little sunshine with fellow residents."

MILESTONE BIRTHDAYS

Grand Milestone celebrations for Gloria Pyke and Reg Pillmore with both residents recently celebrating their 100th Birthdays with family and fellow residents.

VALENTINES DAY HIGH TEA

Our residents always love a Special Event and here at Eventide , HighTea being no exception. High Tea is a British tradition that was very popular in the early 1900's thus being a great reminiscing activity

ALLIED HEALTH UPDATE

It's summer time, there's a great feeling in the air, and breeze of excitement which is sweeping change through the hallways and courtyards at Eventide. What change, do I hear you ask? Well, it's the cool and invigorating breeze of EXERCISE!

As some of you will already know, the team at Eventide were lucky enough to gain the support of the Foundation for Rural and Regional Renewal (FRRR) who provided some funding for new gym equipment. We're now very excited to announce that "Eventide's Goals Gym" is in full swing. So far we have 12 "gym members" who are attending the space regularly, pumping iron, working up a sweat, testing their balance, and building their fitness. It's a great space, full of smiles, energy, laughs, hard work and results.

The gym equipment is pneumatic (air pressure), which means we can increase the resistance in small intervals of 500grams. The air-pressure also means a consistent and smooth feel, which is safe and effective for older joints.

After a short time running the gym, our moto has become "It's heavy, but it's good!" an amazing quote from one of our founding gym members, Margaret Jess.

As we age, it's easy to make excuses about exercises. It's also common to fall into the trap of thinking that you're too old, you've never exercised, or that you can't achieve any positive outcomes from exercise. Well, it's time to think again. We now have countless studies which support that fact that older adults can improve many things through exercises, such as:

- Mobility and balance including lowering falls risk
- Pain which seems persistent or long term
- Muscle strength and size
- Bone and joint health including osteoarthritis
- Heart and lung health
- Chronic diseases such as diabetes; and
- Mental health such as feelings of sadness

Exercise is the magic pill we've all been searching for, it just requires a little effort! I know, it's not exactly the easy approach but just remember "It's heavy, but it's good!".

In other allied health news, we're in the early phases of launching a falls education and management competition as a way of proactively keeping our residents safe and upright. Keep an eye out for more information on this initiative. However, before we launch, you can help!

Residents, have a look around your room and ask yourself "Is it tidy? Is my walker close by? Do I have comfortable and well fitting footwear on? Is there enough lighting? Are there any trip or slip hazards?" If the answer to any of

these questions is "No", the allied health team can help! Similarly, if you're worried about falling, we want to know about it!

Family members and friends; If you think your loved one could benefit from an exercise program to improve mobility, balance and reduce falls risk, we want to know! With your help, we may be able to get more people moving and improving their functional abilities. If you think a de-clutter is in order, let's do it. If you've noticed your loved ones shoes are a little loose or have poor grip on the soles, it might be time for a new pair. We can point you in the right direction. We're very keen to keep all of the residents at Eventide safe and happy, and the best way we think we can do this is by working as a community and a team.

We're also in the process of reviewing all of the chair and bed heights to ensure that residents can stand up safely and easily. And after being notified about some issues with table heights, we're now having all of these adjusted to suit the needs of residents.

We've also launched a morning walking group which is being well attended by residents and we're very much enjoying it. It's a great way to start the day with some sunshine, conversation and exercise. We have a few different drop off points, where residents can head back to the home at different intervals depending on their walking capacity. We're even taking residents in wheelchairs who enjoy the fresh air. It's really an all inclusive group!

Our group exercise programs and individual rehab sessions continue to go from strength to strength. We recently played "Exercise Bingo", where numbers on a 12 sided dice were paired with different exercises such as sit to stands, floor touches, mini squats, high knee lifts and multi-directional stepping. Residents had a lot of fun, and our allied health team took no responsibility when the dice rolled up 12 repetitions of sit to stands.

Finally, we're sad to advise that our amazing long term Occupational Therapist - Grace has moved onto a new role with Stawell Regional Health. Grace was a well respected and loved member of the team at Eventide and her positivity, clinical knowledge, big smile and kind nature will be sorely missed. In the short term, the residents and staff are stuck with me (Simon). I'm a Physiotherapist from Sydney and I'm absolutely loving my time at Eventide! Feel free to come and say hi if you see me in the hallways. I'll be joined on the week commencing 28th February by another awesome physiotherapist named Ellie, who's travelling down from Canberra. We've got lots of exciting ideas ready to go!

Simon Kerrigan – Physiotherapist

UP-DATE ON MEN'S SHED

Our Eventide men are getting a lot of satisfaction from the home grown vegetables they are now growing over in the Men's Shed garden. Each week a supply of freshly picked produce makes it way back to the Eventide kitchen for our chefs to create salads or include in a variety of vegetable dishes. We have had beautiful snow peas, corn, tomatoes, cucumbers, zucchini's, eggplant, lots of lettuce and old fashioned apple cucumbers, just to name a few.

A little bit of watering, a lot of picking, much discussion around what to plant next and a small beer and some relaxation at the end of the day is becoming the norm for some of the Eventide men. It has become a popular part of most days.

We would like to send a big thank you to Ted for generously volunteering his time. Without his experience, advise and energy the gardens would not be where they are today. He has done a wonderful job helping to bring this area together for our blokes to enjoy.

Ps how good does that corn look?

ACTIVE GAMES CHAMPIONSHIPS

Active Games continues to be one of our most popular activities. It creates a healthy amount of competition between residents, discussions around the dining tables about the weekly winners and who currently has the weekly trophy, as well as keeping our residents up and moving. There are certainly many aspects and a range of benefits in participating in active games. We currently have Ten Pin Bowling, Bocci and Indoor Golf Championships, but we include Quiots, Bean Bag Toss and other active games within our programs.

BOCCI

1st Place: Les Dunn

2nd Place: Reg Pilmore

3rd Place: Geoff Air

INDOOR GOLF

1st Place: Les Dunn

2nd Place: Reg Pilmore

3rd Place: Natalina Rathgeber

TEN PIN BOWLS

1st Place: Les Dunn

2nd Place: Sandra Fisher

3rd Place: Ann Van Well

SERVICE OF REMEMBRANCE

Eventide Homes farewelled those residents who passed away in 2021 with a Service of Remembrance.

Reverend Susan Pearse from the Stawell Uniting Church hosted a touching service in the Glyn Cashin Hall enabling residents and families the opportunity to reflect and farewell loved ones. Families and friends could also link into the memorial service via zoom webinar. Please note that for privacy and family consents, not all of our past residents feature here. We acknowledge and respect their time with us at Eventide Homes.

CONSIDER A FUTURE WORKING IN AGED CARE

A career path in aged care is one that is fulfilling and can truly change the lives of others for the better. Not only that, but with Australia's ageing population, an aged care career also has excellent job prospects. We currently have career opportunities in the following areas:

Personal Care, Nursing, Environmental Services and Food Services.

For further information please visit :
